What we usually do

Traditional community engagement approach

- Council writes a report, asks community for feedback, adapts approach based on feedback
- Your Say attracts the small number of the same voices
- Low transparency in the process
- Low level of trust in decisions

Lismore's future is too important to adopt the same approach.

What is happening now

- We will be implementing the widest most comprehensive engagement program across many diverse channels and formats.
- Everyone in the community will have their voice and view heard.
- We want to hear from everyone in the region about their hopes, values, concerns and priorities for the future.

Our future will be by the people, for the people, of Lismore

Empowers Empowers the community to share their hopes, ideas, questions, to concerns.
